Re: Wong v. Blind Brook-Rye Union Free School District, et al.
Civ. Action No. 7:20-cv-02718-CS

Dear Judge Seibel:

Please excuse my confusion and my lack of knowledge in understanding the directive. I do not have the legal background, experiences or education to fully differentiate the titles of the different documents and the protocols for how they should be labeled. Thus, I was under the impression that Statement of Facts was supporting a submission on a late opposition. I incorrectly believed showing the merit or factual information was what was asked as it illustrated validity..

As I am navigating this through self-representation, there is a learning curve. What might seem simple to legal counsel is not the case for me. Please allow late opposition as my lawyer misrepresented what he had completed. I was told the documents were filed as I had provided information. In the interests of equity, justice and fair representation, I should be allowed to continue.

I am respectfully requesting a late submission. Thank you for your consideration.

Best,

Tracey Wong
